

Snaplock Tilt

the ultimate coupler

Demand the Snaplock Tilt when productivity is paramount

If it's a question of convenience and productivity, trust the Doherty Snaplock Tilt to deliver.

The Snaplock Tilt allows you to simply tilt all your attachments rather than having to move the entire machine, greatly improving the productivity and versatility of your machine resulting in increased profits.

Powerful, Proven, Reliable and Durable

Authorised Distributor

Compact in design, powerful and virtually maintenance free, the Snaplock Tilt Coupler incorporating a precision built actuator ensures trouble free operation.

- > Compact design – Improving machine performance
- > Integral overload protection
- > Simplified connections and controls
- > Fully guarded hoses
- > No unwanted movement
- > Up to 180 degrees of tilt
- > Actuator only has two moving parts and is 100% sealed
- > No pins or bushes to wear out
- > No grease nipples
- > Automatic front lock – Locks the front pin in the event the rear pin is not secured
- > Dual pin lock – Locks both front and rear pin in the event of loss of engagement force
- > Multi pin centre and pin diameter, picks up all attachments in the same weight class
- > Unlock process, designed to only release when the operator intends to do so, in a controlled and safe manner
- > Highly visible front lock indicator
- > Only requires four hydraulic lines
- > Safety system does not rely on gravity

When productivity is paramount
demand the **Snaplock Tilt**

Snaplock Tilt Coupler - the internals

Doherty Power Actuator at a Glance

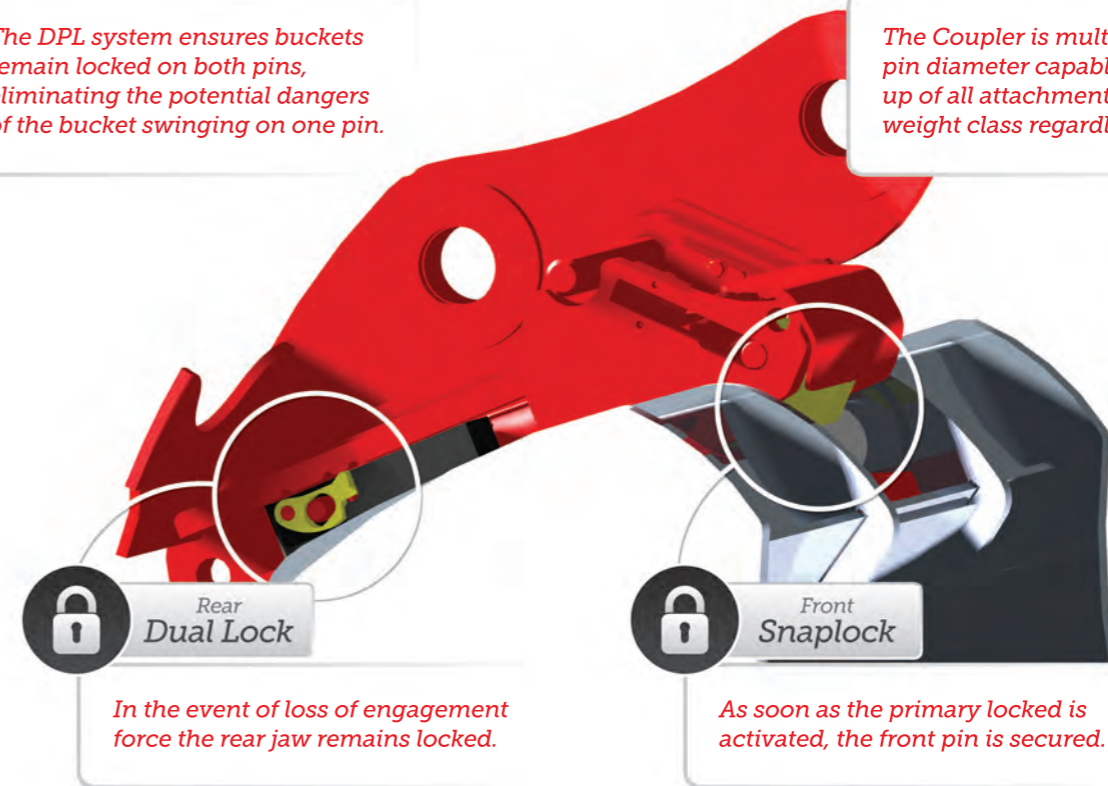

- > Slim structure
- > Replaces cylinders
- > Maintenance-free
- > Wide tilting range
- > Simple assembly
- > Screwed or welded version
- > Perfectly protected against dirt

The Coupler itself - How does it work?

The DPL system ensures buckets remain locked on both pins, eliminating the potential dangers of the bucket swinging on one pin.

The Coupler is multi pin centre and pin diameter capable, allowing pick up of all attachments in the same weight class regardless of brand.

Snaplock Tilt Coupler – Product Range

1.5 - 75 Tonne, a model for every machine

Powerful, Proven, Reliable and Durable

Bolt On - Connect - Work

Applications

Demolition, ditch cleaning, ripping landscaping, site development, road build, railway construction, forestry, brush cutting, mining the Snaplock Tilt is suitable for all.
